TC CRYPTO MONEY

Crypto money that the whole world can use in common

WHAT IS TTCOIN (TC) ?

It is a crypto money created in the TRC20 infrastructure to be used in games and applications of Taner Games & Application Company.

TTCOIN (TC), which is currently trying to collect both distribution and investment with the Google Play application, will provide convenience to its users and investors with its new projects.

Thanks to our upcoming new projects and our representatives to be appointed around the world, TTCOIN (TC) will be suitable for interstate exchanges.

What is TRC20 ?

TRC20 network; Networks used by digital wallets to send, receive or share digital assets between wallet addresses. The ERC-20 network has strong firewalls built on the blockchain base and consists of secure smart contracts.
